

Partnering together for Workforce Business Solutions

ABOUT US

TLX is a full-service workforce business solution provider. We will find the talent/skill you are looking for and provide the initial screening including background and drug tests. At TLX, we will handle payroll, benefits, and taxes including workman's comp. If an employee does not work out for some reason, we find a replacement at no additional charge and handle the unemployment cost because they are on our payroll, not yours.

SKILLED TRADES

YOUR BUSINESS CONSISTS OF AN EVER-FLUCTUATING FLOW OF NEEDS. IN A PERFECT WORLD, THE CONTRACTS, PROJECTS, AND WORKLOADS WOULD COME AT A CONSTANT PACE. WHEN THE CLOCK IS TICKING AND YOU NEED TO RAMP UP YOUR WORKFORCE, TLX IS HERE WITH THE SKILLED LABORERS NECESSARY TO GET YOUR JOB DONE.

Masons, Electricians, Plumbers/Pipefitters, Welders, Sheetmetal/Duct Installers, and Millwrights are all part of this mission-critical workforce. Most facility managers or general contractors will have a core group of these skills on staff but when workflow increases or major projects drop into the company, you are faced with several challenges:

1. You need to add to your workforce but not over-hire which creates a financial challenge for the company at the end of the project.
2. Need to staff quickly but also need to focus on the project plans, not the hiring process.
3. Always looking for new team members, but there is a risk of lost investment if an employee isn't what you hoped for or does not fit into your culture.

Please contact your Account Executive or email us at marketing@tlxcorp.com for a no-obligation conversation.
